PROFESSIONAL SUMMARY

Results-driven Engineering Manager and Full-Stack Architect with 10+ years of experience designing and delivering scalable, high-performance web applications. Proven track record leading cross-functional engineering teams, driving Angular and .NET modernization initiatives, and shipping complex products in fast-paced environments. Combines deep hands-on expertise in React, Angular, Node.js, and .NET 8 with strong leadership capabilities — mentoring engineers, establishing best practices, and aligning technology execution with business goals. Experienced in Agile delivery, AI proof-of-concept integration, and retail technology solutions deployed on Microsoft Surface devices.

CORE COMPETENCIES

Frontend: Angular (v2–latest), React, TypeScript, JavaScript (ES6+), HTML5, CSS3, RxJS, NgRx

Backend: .NET 8, ASP.NET Core, Node.js, Express.js, PHP (CodeIgniter), RESTful APIs, WPF

Databases: MySQL, MongoDB, SQL optimization, database design & architecture

DevOps & Tools: Git, SVN, CI/CD pipelines, Azure DevOps, Visual Studio, VS Code

Architecture: Scalable system design, component-driven development, legacy modernization, microservices

Leadership: Team mentoring & coaching, Agile/Scrum, code reviews, cross-functional delivery, risk management

AI & Emerging: Generative AI integration, AI-driven POC development, LLM tooling exploration

PROFESSIONAL EXPERIENCE

Engineering Manager Jul 2025 – Present

Encora Inc. · Ahmedabad, India

- Lead architecture design, framework upgrades, and end-to-end feature delivery for a suite of Angular applications supporting in-store retail operations on Microsoft Surface devices.
- Mentor and coach engineers and tech leads, establishing high code quality standards and a culture of continuous improvement.
- Collaborate with product and business stakeholders to align engineering roadmap with operational and strategic goals.

Senior Technical Lead May 2022 – Jun 2025

Encora Inc. · Ahmedabad, India

- Delivered multiple high-impact application releases with consistently strong client feedback across a 3-year tenure.
- Architected and led Angular modernization program, migrating legacy codebase to the latest Angular LTS, improving performance and maintainability.
- Drove .NET migration projects, transitioning systems to .NET 8 and WPF, ensuring forward compatibility and reduced technical debt.
- Achieved full automated test coverage on complex modules including pinch-zoom and SKU management, improving release confidence.
- Contributed to AI-driven proof-of-concept initiatives, exploring GenAI capabilities to enhance product offerings.
- Oversaw end-to-end product development lifecycle — from technical planning through production deployment — managing timelines and risk.
- Mentored developers and tech leads, fostering a collaborative engineering culture through structured code reviews and knowledge-sharing.

Technical Lead May 2020 – Apr 2022

Encora Inc. · Ahmedabad, India

- Led development of scalable front-end and back-end features, driving adoption of component-driven architecture.
- Independently delivered full backend projects including API design, MySQL database architecture, and PHP CodeIgniter implementations.
- Contributed to DotNetNuke performance improvements and advanced data visualization via SQL optimization.

Senior Software Engineer Nov 2019 – Apr 2020

Encora Inc. · Ahmedabad, India

- Developed and maintained high-quality Angular and .NET components in a collaborative agile team environment.
- Introduced reusable UI component libraries, accelerating development velocity across the team.

Software Engineer Jun 2018 – Oct 2019

Encora Inc. · Ahmedabad, India

- Built and shipped production features across full-stack applications using Angular, .NET, and PHP.
- Collaborated closely with cross-functional teams to consistently deliver client requirements on schedule.

Software Engineer Sep 2015 – May 2018

BrillBrains Technolabs · Ahmedabad, India

- Developed web applications using CodeIgniter, Core PHP, and Angular, building RESTful web services for mobile and web clients.
- Worked across a full development lifecycle from requirements through deployment and post-launch support.

KEY ACHIEVEMENTS

- Promoted 4 times in under 8 years at Encora — from Software Engineer to Engineering Manager.
- Led Sales Application project end-to-end, recognized for on-time, high-quality delivery with strong client satisfaction.
- Spearheaded Angular modernization and .NET 8 migration programs, reducing technical debt and improving system performance.
- Achieved full automated test coverage on mission-critical modules, significantly reducing QA cycle time.
- Published technical article on npm package.json best practices — demonstrating thought leadership in the dev community.
- Recipient of multiple internal awards: Shine Award (×2), Team Excellence, and 5 Years of Achievement.

NOTABLE PROJECTS

In-Store Sales Application Suite — End-to-end technical leadership for Angular + .NET 8 WPF applications deployed on Microsoft Surface devices for retail business teams. Delivered multiple releases with zero critical production incidents.

Angular Modernization Program — Planned and executed full migration of a large-scale Angular codebase to the latest LTS version, improving bundle performance, developer experience, and security posture.

AI-Powered POC Exploration — Contributed to multiple proof-of-concept initiatives integrating Generative AI capabilities into existing product workflows, evaluating feasibility for production adoption.

EDUCATION

Bachelor of Engineering — Computer Science & Engineering 2011 – 2015

Sanjaybhai Rajguru College of Engineering · Gujarat, India

CERTIFICATIONS

- **Exam 480: Programming in HTML5 with JavaScript and CSS3** — *Microsoft*
- **Generative AI for Everyone** — *DeepLearning.AI / Coursera*
